SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2024

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-40867

Volcon, Inc.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of
Incorporation or Organization)

84-4882689

(I.R.S. Employer
Identification No.)

3121 Eagles Nest Street, Suite 120, Round Rock, TX

(Address of Principal Executive Offices)

78665

(Zip Code)

(512) 400-4271

(Registrant's Telephone Number, Including Area Code)

(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock	VLCN	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller Reporting Company

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The registrant had 25,098,955 shares of common stock outstanding at May 6, 2024.

VOLCON, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – ORGANIZATION, NATURE OF OPERATIONS AND GOING CONCERN

Organization and Nature of Operations

Volcon, Inc. (“Volcon” or the “Company”) was formed on February 21, 2020, as a Delaware corporation, under the name Frog ePowersports, Inc. The Company was renamed Volcon, Inc. on October 1, 2020. Volcon designs and sells all-electric off-road powersport vehicles.

On January 5, 2021, the Company created Volcon ePowersports, LLC (“Volcon LLC”), a Colorado wholly-owned subsidiary of the Company, to sell Volcon vehicles and accessories in the United States. Volcon LLC is no longer used for selling vehicles and accessories.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has recurring losses and has generated negative cash flows from operations since inception.

In February and March 2024, certain holders of the May 2023 Convertible Notes issued in May 2023 converted approximately \$7.4 million of principal to common stock. In March 2024, the holders exchanged the remaining May 2023 Convertible Notes of \$24.7 million for Series A Convertible Preferred Stock (“Preferred Stock”) with a \$1,000 per share value and an initial conversation price of \$1.33 per share for common stock (see Note 9). All covenants from the Convertible Notes were terminated upon this exchange.

Management anticipates that our cash on hand as of March 31, 2024 plus cash expected to be generated from operations will not be sufficient to fund planned operations beyond one year from the date of the issuance of the financial statements as of and for the three months ended March 31, 2024. There can be no assurance that additional funding, if needed, would be available to the Company on acceptable terms, or at all. These factors raise substantial doubt regarding our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that may result should the Company be unable to continue as a going concern.

Nasdaq Compliance

On July 5, 2023, the Company received a notice from Nasdaq that it was not in compliance with Nasdaq’s Listing Rule 5550(b)(2), which requires that it maintain a market value of listed securities (“MVLS”) of \$35 million. MVLS is calculated by multiplying the Company’s shares outstanding by the closing price of its common stock. On December 19, 2023, the Company received a notice from Nasdaq that it was not in compliance with Nasdaq’s Listing Rule 5550(a)(2), as the minimum bid price of its common stock had been below \$1.00 per share for 30 consecutive business days.

On December 26, 2023, the Company was notified by Nasdaq that it is not in compliance with Nasdaq’s Listing Rule 5810(c)(3)(A)(iii) as the closing bid price of our common stock had been below \$0.10 for ten consecutive trading days from December 11, 2023 through December 22, 2023 and was subject to delisting on January 2, 2024. On January 4, 2024, the Company received notice from Nasdaq that we did not meet the MVLS requirement and we were subject to delisting. The Company submitted a hearing request to Nasdaq’s Hearings Department for both of these matters, which stayed the suspension of the Company’s common stock. The Company participated in a hearing with Nasdaq’s Hearings Department on March 26, 2024 and on April 2, 2024, they informed the Company that the Company has until June 24, 2024 to regain compliance with the above listing rules.

Employment Matters

On January 13, 2024, the Company's Chief Executive Officer ("CEO"), Jordan Davis, resigned his employment with the Company effective February 2, 2024. The Company entered into a 30-day consulting agreement with Mr. Davis and paid him \$12,500.

On January 30, 2024, John Kim, an independent board member of the Company signed an employment agreement with the Company to become the CEO effective February 3, 2024. Mr. Kim's salary is \$800,000 and he has an annual bonus of \$250,000. Mr. Kim will also receive 5% of the gross proceeds or other consideration if the Company completes a sale of substantially all of its assets or otherwise enters into a change of control transaction. Mr. Kim is also entitled to an equity award equal to 10% of the Company's fully diluted equity, subject to stockholder approval of an increase in the shares available under the 2021 Plan or a new equity plan.

On January 30, 2024, Greg Endo, the Company's Chief Financial Officer, signed a new employment agreement with the Company. Mr. Endo's salary will be increased to \$300,000 and he will have an annual bonus of up to 50% of his salary as determined by the compensation committee of the board of directors. Mr. Endo has agreed to a reduction in the salary to \$238,500 through the end of 2024. Mr. Endo will also receive 5% of the gross proceeds or other consideration if the Company completes a sale of substantially all of its assets or otherwise enters into a change of control transaction. Mr. Endo is also entitled to an equity award equal to 4% of the Company's fully diluted equity, subject to stockholder approval of an increase in the shares available under the 2021 Plan or a new equity plan.

On February 23, 2024, Katherine Hale resigned her position as Chief Marketing Officer. Ms. Hale was provided a severance amount of \$112,500 which will be paid out over three monthly installments beginning in March 2024.

Impact of Russia and Ukraine Conflict

On February 24, 2022, Russia invaded Ukraine. The conflict between Russia and Ukraine could impact the availability of nickel, an element used in the production of lithium ion cells used in batteries that power our vehicles. The shortage of these cells could have an impact on our ability to produce vehicles to meet our customers' demands. In addition, sanctions against Russia could impact the price of elements, including nickel, that are used in the production of batteries which would result in higher costs to produce our vehicles. These sanctions have also impacted the U.S. and global economies and could result in an economic recession which could cause a broader disruption to the Company's supply chain and distribution network and customer demand for our products.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Unaudited Financial Information

The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2023, which was filed with the Securities and Exchange Commission ("SEC") on March 28, 2024. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with U.S. GAAP have been omitted from this report on Form 10-Q pursuant to the rules and regulations of the SEC.

Results for the interim periods in this report are not necessarily indicative of future financial results and have not been audited by our independent registered public accounting firm. In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments necessary to present fairly our interim consolidated financial statements as of March 31, 2024, and for the three months ended March 31, 2024 and 2023. These adjustments are of a normal recurring nature and consistent with the adjustments recorded to prepare the annual audited consolidated financial statements as of December 31, 2023.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All intercompany accounts, transactions and balances have been eliminated in consolidation.

As discussed in Note 9, the Company completed a reverse 1 for 45 stock split on February 2, 2024, all share and per share amounts have been adjusted to reflect the impact of these reverse stock splits.

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of any contingent assets and liabilities as of the dates of the financial statements and the reported amounts of expenses during the reporting periods.

Making estimates requires management to exercise judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, actual results could differ significantly from those estimates.

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents include short-term investments with original maturities of 90 days or less at the date of purchase. The recorded value of our cash and cash equivalents approximates their fair value. There were no cash equivalents as of March 31, 2024 or December 31, 2023. Restricted cash includes cash restricted as collateral for the Company's corporate credit cards and a letter of credit with the Company's bank.

Revenue Recognition

For sales to dealers or distributors, revenue is recognized when transfer of control of the product is made as there is no acceptance period or right of return. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring control of vehicles, parts, and accessories. Beginning in February 2023 the Company began selling the Brat E-Bike and Volcon Youth motorcycles directly to consumers in addition to dealers. Revenue for direct to consumer sales is recognized when transfer of control of the product is made to the consumer.

Consideration that is received in advance of the transfer of goods is recorded as customer deposits until delivery has occurred or the customer cancels their order, and the consideration is returned to the customer. Sales and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue. The Company's sales do not presently have a financing component.

Sales promotions and incentives. The Company provides for estimated sales promotions and incentives, which are recognized as a component of sales in measuring the amount of consideration the Company expects to receive in exchange for transferring goods or providing services. Examples of sales promotion and incentive programs include rebates, distributor fees, dealer co-op advertising and volume incentives. Sales promotions and incentives are estimated based on contractual requirements. The Company records these amounts as a liability in the balance sheet until they are ultimately paid. Adjustments to sales promotions and incentives accruals are made as actual usage becomes known to properly estimate the amounts necessary to generate consumer demand based on market conditions as of the balance sheet date.

Shipping and handling charges and costs. The Company records shipping and handling amounts charged to the customer and related shipping costs as a component of cost of goods sold when control has transferred to the customer.

Product Warranties

The Company provides a one-year warranty on vehicles, and a two-year warranty on the battery pack. The Company accrues warranty reserves at the time revenue is recognized. Warranty reserves include the Company's best estimate of the projected cost to repair or to replace any items under warranty, based on actual warranty experience as it becomes available and other known factors that may impact the evaluation of historical data. The Company reviews its reserves quarterly to ensure that the accruals are adequate to meet expected future warranty obligations and will adjust estimates as needed. Factors that could have an impact on the warranty reserve include the following: changes in manufacturing quality, shifts in product mix, changes in warranty coverage periods, product recalls and changes in sales volume. Warranty expense is recorded as a component of cost of goods sold in the statement of operations and is recognized as a current liability.

Inventory and Inventory Deposits

Inventories and prepaid inventory deposits are stated at the lower of cost (first-in, first-out method) or net realizable value.

Certain vendors require the Company to pay an upfront deposit before they manufacture and ship the Company's parts or accessories. These payments are classified as prepaid inventory deposits on the balance sheet until title and risk of loss transfers to the Company, at which time they are classified as inventory.

Raw materials inventory costs include the cost of parts, including duties, tariffs, and shipping. Work-in-process and finished goods include the cost of parts, labor and manufacturing overhead costs associated with the assembly of the vehicle. Finished goods also include accessories for the vehicle and branded merchandise such as hats and shirts.

Through August 2022 the Company assembled the Grunt motorcycle in a leased facility. The Company ceased assembly operations at the end of August and outsourced the assembly of the Grunt to a third party.

In May 2023, the Company transferred substantially all of its raw materials and work-in-process inventory for the Grunt to the third party manufacturer in the second quarter of 2023. Title to the inventory transferred to the third party manufacturer and the manufacturer provides the Company with a credit towards future purchases of the Grunt EVO.

Property and Equipment

Property and equipment are valued at cost. Additions are capitalized and maintenance and repairs are charged to expense as incurred. Gains and losses on dispositions of equipment are reflected in operations. Depreciation is recorded using the straight-line method over the estimated useful lives of the assets as follows:

Category	Estimated Useful Lives
Machinery, tooling and equipment	3-7 years
Vehicles	5 years
Internal use manufactured vehicles	1 year
Furniture & Fixtures	5 years
Computers	3 years

Leasehold improvements are depreciated over the shorter period of their estimated useful life or term of the lease.

Long-Lived Assets

The Company's long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the historical carrying cost value of an asset may no longer be appropriate. The Company assesses recoverability of the asset by comparing the undiscounted future net cash flows expected to result from the asset to the carrying value. If the carrying value exceeds the undiscounted future net cash flows of the asset, an impairment loss is measured and recognized. An impairment loss is measured as the difference between the net book value and the fair value of the long-lived asset.

Leases

Right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term. Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term. The Company does not separate non-lease components from the lease components to which they relate, and instead accounts for each separate lease and non-lease component associated with that lease component as a single lease component.

ASC 842 defines initial direct costs as only the incremental costs of signing a lease. Initial direct costs related to leasing that are not incremental are expensed as general and administrative expenses in our statements of operations.

The Company's operating lease agreements primarily consist of leased real estate and are included within ROU assets – operating leases and ROU lease liabilities – operating leases on the balance sheets. The Company's lease agreements may include options to extend the lease, which are not included in minimum lease payments unless they are reasonably certain to be exercised at lease commencement. The Company's leases do not provide an implicit rate, the Company uses its estimated incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

Research and Development Expenses

The Company records research and development expenses in the period in which they are incurred as a component of product development expenses.

Income Taxes

Deferred taxes are determined utilizing the "asset and liability" method, whereby deferred tax asset and liability account balances are determined based on the differences between financial reporting and the tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, when it's more likely than not that deferred tax assets will not be realized in the foreseeable future. Deferred tax liabilities and assets are classified as current or non-current based on the underlying asset or liability or if not directly related to an asset or liability based on the expected reversal dates of the specific temporary differences.

Fair Value of Financial Instruments

ASC Topic 820 *Fair Value Measurements and Disclosures* ("ASC Topic 820") provides a framework for measuring fair value in accordance with generally accepted accounting principles.

ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs).

The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

- Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 — Inputs that are unobservable for the asset or liability.

The following section describes the valuation methodologies that the Company used to measure different financial instruments at fair value.

Debt

The fair value of the Company's debt approximated the carrying value of the Company's debt as of March 31, 2024 and December 31, 2023. Factors that the Company considered when estimating the fair value of its debt included market conditions, and term of the debt. The level of the debt would be considered as Level 2.

The Company relies on the guidance provided by ASC Topic 480, *Distinguishing Liabilities from Equity*, to classify certain convertible instruments. The Company first determines whether a financial instrument should be classified as a liability. The Company will determine the liability classification if the financial instrument is mandatorily redeemable, or if the financial instrument, other than outstanding shares, embodies a conditional obligation that the Company must or may settle by issuing a variable number of its equity shares.

The Company accounts for derivative instruments in accordance with ASC Topic 815, *Derivatives and Hedging* ("ASC Topic 815"), and all derivative instruments are reflected as either assets or liabilities at fair value on the consolidated balance sheets. The Company uses estimates of fair value to value its derivative instruments. Fair value is defined as the price to sell an asset or transfer a liability in an orderly transaction between able and willing market participants. In general, the Company's policy in estimating fair values is to first look at observable market prices for identical assets and liabilities in active markets, where available. When these are not available, other inputs are used to model fair value such as prices of similar instruments, yield curves, volatilities, prepayment speeds, default rates and credit spreads, relying first on observable data from active markets. Depending on the availability of observable inputs and prices, different valuation models could produce materially different fair value estimates. The values presented may not represent future fair values and may not be realizable. The Company categorizes its fair value estimates in accordance with ASC Topic 820, based on the hierarchical framework associated with the three levels or price transparency utilized in measuring financial instruments at fair value as discussed above.

Once the Company determines that a financial instrument should not be classified as a liability, the Company determines whether the financial instrument should be presented between the liability section and the equity section of the balance sheet ("temporary equity"). The Company will determine temporary equity classification if the redemption of the financial instrument is outside the control of the Company (i.e., at the option of the holder). Otherwise, the Company accounts for the financial instrument as permanent equity.

Initial Measurement

The Company records its financial instruments classified as a liability, temporary equity or permanent equity at issuance at fair value, or cash received.

Subsequent Measurement - Financial instruments classified as liabilities

The Company records the fair value of its financial instruments classified as liabilities at each subsequent measurement date. The changes in fair value of its financial instruments classified as liabilities are recorded as other expense/income. The Monte Carlo simulation is used to determine the fair value of derivatives for instruments with embedded conversion features and for free standing warrants as discussed further in Note 7.

Additional Disclosures Regarding Fair Value Measurements

The carrying value of cash, accounts receivable, inventory, other assets, and accounts payable and accrued expenses approximate their fair value due to the short-term maturity of those items.

Warrant Liabilities and Convertible Liabilities

The fair value of the derivative liabilities and warrant liabilities is classified as Level 3 within the Company's fair value hierarchy. Refer to Note 7, Derivative Instruments, for further discussion of the measurement of fair value of the derivatives and their underlying assumptions.

Stock-Based Compensation

The Company has a stock-based incentive award plan for employees, consultants and directors. The Company measures stock-based compensation at the estimated fair value on the grant date and recognizes the amortization of stock-based compensation expense on a straight-line basis over the requisite service period, or when it is probable criteria will be achieved for performance-based awards. Fair value is determined based on assumptions related to the fair value of the Company common stock, stock volatility and risk-free rate of return. The Company has elected to recognize forfeitures when realized.

Concentration Risk

The Company outsources certain portions of product design and development for its vehicles to third parties. In addition, the Company has outsourced the manufacturing of all of its vehicles to third party manufacturers, including one manufacturer for two of its vehicles, the Stag and Grunt EVO, and this third party is also performing product design and development services on the Stag.

One supplier provides the battery and drivetrain components for the Company's utility terrain vehicle, the Stag. The components are critical to the operation of the Stag. The Company also sources some of the other components from third party suppliers and the third party manufacturer sources other components from third party suppliers or fabricates them from materials sourced from third parties.

On January 8, 2024, the Company notified the manufacturer of the Volcon Youth motorcycles that it was terminating the co-branding and distribution agreement with them due to lower than anticipated sales of these units. In March 2024, the Company agreed to allow the manufacturer to keep all fully paid for units manufactured and held by the manufacturer and pay cash of \$2,070,000 which includes a payment of \$370,000 in March 2024 and \$100,000 monthly for seventeen months starting April 2024. The settlement was recorded in the financial statements for the year ended December 31, 2023. The balance of the liability as of March 31, 2024 is \$1,600,000. As discussed below, the Company has written down this inventory to its estimated net realizable value.

Recently Issued Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standard Board or other standard setting bodies that the Company adopts as of the specified effective date. The Company does not believe that the impact of recently issued standards that are not yet effective will have a material impact on the Company's financial position or results of operations upon adoption.

NOTE 3 – INVENTORY

Inventory consists of the following:

	March 31, 2024	December 31, 2023
Raw materials	\$ 7,115,006	\$ 6,770,892
Finished goods	1,829,308	2,202,242
Total inventory	<u>\$ 8,944,314</u>	<u>\$ 8,973,134</u>

The Company has purchase commitments for future payments due for inventory of \$2,125,572.

NOTE 4 – LONG – LIVED ASSETS

Property and Equipment

Property and equipment consist of the following:

	March 31, 2024	December 31, 2023
Machinery, tooling and equipment	\$ 820,907	\$ 1,015,568
Vehicles	167,666	213,528
Internal use manufactured vehicles	109,641	22,906
Fixtures & furniture	90,768	90,768
Leasehold improvements	44,663	44,663
Computers	221,571	221,571
	<u>1,455,216</u>	<u>1,609,004</u>
Less: Accumulated depreciation	(380,357)	(350,397)
Total property and equipment	<u>\$ 1,074,859</u>	<u>\$ 1,258,607</u>

Depreciation expense for the three months ended March 31, 2024 and 2023 was \$97,720 and \$50,388, respectively.

NOTE 5 – NOTES PAYABLE

In March 2023, the Company entered into two financing arrangements to purchase two vehicles. The total principal of these arrangements is \$96,024 with interest rates of 11.44% and 8.63% and monthly payments totaling \$1,923 are due through February 2028 and \$908 per month until February 2029. The vehicles are collateral for these arrangements. In February 2024, one of the vehicles was involved in an accident and was totaled. The note payable associated with this vehicle was paid off with the proceeds received from the insurance carrier.

The following table provides the maturities of the remaining note payable as of March 31, 2024:

Remainder of 2024	\$	8,174
2025		10,898
2026		10,898
2027		10,898
2028		10,898
2029		1,816
Total future payments		<u>53,582</u>
Less: Interest		<u>(12,993)</u>
Total note payable		40,589
Less current portion		<u>(6,594)</u>
Long-term note payable	\$	<u>33,995</u>

NOTE 6 - CONVERTIBLE NOTES

On August 24, 2022, the Company issued Senior Convertible Notes with an aggregate principal amount of \$27,173,913 due February 24, 2024. The holders of the Convertible Notes also received fully vested warrants (the “Note Warrants”) to purchase 40,260 shares of the Company’s common stock at an initial exercise price of \$641.25 per share. The conversion and warrant exercise prices were subject to adjustment if the Company declared a stock dividend, stock split or recapitalization. The Company incurred debt issuance costs of \$3,316,409 upon issuance of the Convertible Notes, which includes \$616,730 for the fair value of the warrants issued to the placement agent of the Convertible Notes as further described in Note 9. These debt issuance costs were amortized as additional interest expense through May 24, 2023 when the Convertible Notes were exchanged as discussed below.

Company allocated the net proceeds received from the issuance of the Convertible Notes and Note Warrants based on the relative fair values of each resulting in net proceeds of \$15,122,345 being allocated to the Convertible Notes and net proceeds of \$6,561,247 being allocated to the Note Warrants which was recorded in equity. The Company recorded non-cash interest expense through May 24, 2023 to accrete the allocated value of the Convertible Notes using the effective interest method and an interest rate of 39.6%. Interest expense, including amortization of issuance costs, recorded for the Convertible Notes for the three months ended March 31, 2023 was \$1,776,636.

On May 24, 2023, the Company issued additional Senior Convertible Notes (“New Notes”) with an aggregate principal amount of \$4,934,783 due February 24, 2024 to the same investors of the Convertible Notes. The New Notes had an initial conversion price of \$571.50 per share of common stock, which was adjusted to \$168.75 upon stockholder approval received on August 3, 2023. The conversion price was also subject to further adjustment if the Company completed an equity or convertible note offering with a price below \$168.75, or completed a stock split, reverse stock split or recapitalization where the lowest day’s volume weighted average price (“VWAP”) of the Company’s stock price is below \$168.75 in the five days following the stock split, with a floor price of \$0.22 (subject to stockholder approval, which was obtained on August 3, 2023). The conversion price was also subject to further adjustment if the Company completed an equity or convertible note offering with a price below \$168.75. The New Notes were issued with an original issue discount of 8.8% and did not bear interest unless an event of default has occurred, upon which interest accrued at 10% per annum.

The holders of the New Notes also received fully vested warrants (the “New Warrants”) to purchase 24,155 shares of the Company’s common stock at an initial exercise price of \$245.25 per share. The New Warrants expire August 24, 2027.

The Company incurred debt issuance costs of \$586,968 upon issuance of the New Notes and New Warrants. The Company amortized these issuance costs as additional interest expense over the remaining term of the New Notes.

Concurrent with the issuance of the New Notes, the Company exchanged the Convertible Notes into two new notes, Series A Notes and Series B Notes both due February 24, 2024 (collectively the “Exchange Notes” and collectively with the New Notes the “May 2023 Notes”). The aggregate principal amount of Series A Notes was \$3,690,422 and these were convertible into the Company’s common stock at an initial conversion price of \$168.75 per share. The aggregate principal amount of the Series B Notes was \$23,483,491 and were convertible into the Company’s common stock at an initial conversion price of \$245.25 which was adjusted to \$168.75 upon stockholder approval received on August 3, 2023.

In September 2023, the holders of the May 2023 Notes agreed to modify the due date of these notes to January 31, 2025. The Company also executed a security interest to the holders for substantially all of the assets of the Company.

Events of default for the May 2023 Notes were defined in the note agreements and the Company was in compliance with all covenants until the May 2023 Notes were exchanged for Series A Convertible Preferred Stock (“Preferred Stock”) on March 4, 2024 as discussed below.

The fair value of the May 2023 Notes was estimated based on the future cash flows discounted at an interest rate of 14.9%. The May 2023 Notes were recorded at their initial fair values as follows:

	Fair Value	Principal Amount
New Notes	\$ 4,410,058	\$ 4,934,783
Series A Exchange Notes	3,298,012	3,690,422
Series B Exchange Notes	20,986,449	23,483,891
Total May 2023 Notes	<u>\$ 28,694,519</u>	<u>\$ 32,109,096</u>

The Company estimated the fair value of the conversion features of the New Notes, Exchange Notes, New Warrants and Exchange Warrants as of May 24, 2023, as discussed in Note 7 below.

The Company recognized interest expense of \$314,838 in the three months ended March 31, 2024 for the amortization of debt issuance costs and the accretion of the discount on the May 2023 Notes.

The Company also exchanged the 40,258 Note Warrants with an exercise price of \$641.25 per share issued with the Convertible Notes in August 2022 for 75,814 warrants which had an initial exercise price of \$245.25 per share (the “Exchange Warrants”) and was adjusted to \$168.75 per share upon stockholder approval received on August 3, 2023. The Exchange Warrants expire August 24, 2027.

The conversion prices of the Exchange Notes, and the exercise prices of the New Warrants and Exchange Warrants (collectively the “May 2023 Warrants”) were subject to further adjustment in the event that the Company issues additional common stock, stock options, warrants or convertible notes with prices below the exercise price in effect at the time of issuance, or completes a stock split, reverse stock split or recapitalization where the lowest day’s VWAP of the Company’s stock price is below the then exercise price in the five days following the stock split with a floor of \$0.22 per share.

The Company evaluated the issuance of the New Notes and Exchange Notes and related warrants and determined that the Convertible Notes were extinguished based on the conclusion that the terms of the New Notes and Exchange Notes are substantially different from the Convertible Notes in accordance with ASC 470, *Debt*. In addition, the Company recognized a loss on the extinguishment of the Convertible Notes based on the carrying value of the Convertible Notes at the transaction date, plus gross proceeds received from the issuance of New Notes and New Warrants, less the fair value of the i) New Notes and conversion option, ii) New Warrants, iii) Exchange Notes and conversion options, and iv) Exchange Warrants. The resulting loss on extinguishment of the Convertible Notes was \$22,296,988 (including unamortized issuance costs of \$1,330,296) which was recorded in the three and six-month periods ended June 30, 2023.

The May 2023 Notes contained certain conversion limitations, providing that no conversion may be made if, after giving effect to the conversion, the holder, together with any of its affiliates, would own in excess of 9.99% of the Company's outstanding shares of common stock after giving effect to such conversion. The Company had the option to force conversion of the Series A and Series B Notes but the weighted average price of the Company's common stock did not equal or exceed the amounts specified in the May 2023 Note agreements while these notes were outstanding.

In September 2023, the Company and the holders of the Exchange Warrants entered into a warrant inducement agreement whereby the Exchange Warrant holders agreed to exercise 6,824 Exchange Warrants at a reduced exercise price of \$78.75 per share. The Company issued the holders 6,824 warrants ("Reload Warrants") with an exercise price of \$112.50 per share. The Reload Warrants are immediately exercisable for unregistered shares of the Company's common stock and have the same terms as the May 2023 Warrants and expire August 24, 2027. The Company recognized equity issuance costs of \$216,855 for the issuance of the Reload Warrants.

The May 2023 Warrants and Reload Warrants contained certain conversion limitations, providing that a holder thereof may not exercise such warrants to the extent that, if after giving effect to such conversion, the holder or any of its affiliates would beneficially own in excess of 4.99% of the outstanding shares of the Company's common stock immediately after giving effect to such exercise. The May 2023 Warrants and Reload Warrants provide the holders the right to exercise these warrants on a non-cash basis if the Company does not have an effective registration statement for the underlying shares of common stock.

Holders of the May 2023 Notes, the May 2023 Warrants and Reload Warrants do not have voting rights to the extent they have not converted their notes or exercised their warrants.

In September 2023, the Company completed a public offering and sold 6,223 shares of common stock at \$112.50 per share. The holders of the May 2023 Notes waived their right to reduce the conversion price to the equity issuance price and agreed to reduce the conversion price to \$123.75 per share. The exercise price of the May 2023 Warrants was reduced to \$112.50 per share as a result of the public offering.

On October 13, 2023, the Company completed a 1 for 5 reverse stock split and the lowest day's VWAP in the five days following the reverse split was \$61.605 per share and the conversion price of the May 2023 Notes, and the exercise price of the May 2023 Warrants were reduced to \$61.605 per share effective October 20, 2023. On February 2, 2024, the Company completed a reverse 1 for 45 stock split. As a result, the conversion price of the May 2023 Notes and exercise price of the May 2023 Warrants were subject to adjustment to the lowest day's VWAP in the five-day period following the reverse split, which was \$1.8646 per share effective February 12, 2024.

During the 3 months ended March 31, 2024, \$7,414,025 of principal of the May 2023 Notes were converted into 3,976,202 shares of common stock. The Company recognized a loss of \$333,544 on the conversion including the write off of \$55,490 of unamortized debt issuance costs. The remaining principal of the May 2023 Notes of \$24,716,118 was exchanged for 24,698 shares of Series A convertible Preferred Stock with a stated value of \$1,000 and a conversion price of \$1.33. The Company recognized a loss on the exchange of the Convertible Notes for Preferred Stock of \$1,314,064, which includes unamortized issuance costs of \$182,009, in the three months ended March 31, 2024.

As a result of the exchange for Preferred Stock, the May 2023 Notes are no longer outstanding, there are no remaining covenants related to the May 2023 Notes that the Company must comply with and the security interest on the assets of the Company has been released by the noteholders. The May 2023 Warrants' exercise price was reduced to \$1.33 as a result of this exchange.

NOTE 7 - DERIVATIVE FINANCIAL INSTRUMENTS AND WARRANT LIABILITIES

May 2023 Notes and May 2023 Warrants

As discussed in Note 6, the Company recognized a loss on the extinguishment of the Convertible Notes based on the fair values of the May 2023 Notes including the conversion feature, and the May 2023 Warrants. The Company determined that there was a derivative liability associated with the conversion features in the May 2023 Notes due to the conversion price being subject to stockholder approval in the conversion feature. Therefore, the Company separated the conversion features from the May 2023 Notes and recorded them at fair value and continued to adjust them to fair value until stockholder approval was received on August 3, 2023 as the conversion price is then only adjusted based on anti-dilutive provisions. The Company has also determined that the May 2023 Warrants are derivative liabilities due to the potential adjustment in the exercise prices being subject to stockholder approval. Once stockholder approval was received on August 3, 2023, the exercise price of the warrants only adjusts based on anti-dilutive provisions and they are no longer derivative liabilities.

The fair value of the conversion features and warrant liabilities were calculated using a Monte Carlo simulation and the following assumptions and methodologies:

	May 24, 2023	August 3, 2023
Conversion Feature Liabilities		
Company stock price on valuation date	\$ 157.50	\$ 123.975
Volatility (closing prices of guideline comparable public companies)	86.3%	84.1%
Conversion price per share	\$ 168.75	\$ 168.75
Note term (years)	0.76	0.56
Risk free interest rate	5.1%	5.4%
Warrant Liabilities		
Company stock price on valuation date	\$ 157.50	\$ 123.975
Volatility (closing prices of guideline comparable public companies)	119.2%	115.0%
Conversion price per share	\$ 168.75	\$ 168.75
Warrant term (years)	4.25	4.06
Risk free interest rate	3.8%	4.3%

In addition to the above factors, the Company also used a probability assessment for the initial and August 3, 2023 valuation to evaluate whether stockholder approval would be received to lower the conversion and exercise prices. The Company utilized a 50/50 assessment that stockholders would or would not approve the lower conversion and exercise price. Management notes that at the time of the assessment, the stockholder vote had not yet started therefore there was no data to determine whether one scenario was more likely than another. Since the stockholders approved the lower conversion and exercise price on August 3, 2023, no probability assessment was used.

Based on the above factors, the estimated fair value of the Company's financial derivative liabilities carried at fair value at May 24, 2023 and August 3, 2023 were as follows:

	May 24, 2023	August 3, 2023
Conversion Feature - New Notes	\$ 663,096	\$ 557,168
Conversion Feature - Series A Exchange Notes	970,805	416,672
Conversion Feature - Series B Exchange Notes	4,324,792	2,651,436
New Warrants	3,123,682	2,445,244
Exchange Warrants	9,287,474	7,191,535
Total	<u>\$ 18,369,849</u>	<u>\$ 13,262,055</u>

On August 3, 2023, stockholders approved the adjustment of the conversion price of the New Notes and Exchange Notes and the exercise price of the New Warrants and Exchange Warrants. The conversion and exercise prices can adjust to a floor of \$0.22 per share based on certain events defined in the agreements related to these instruments. The Company concluded that as of August 3, 2023, the conversion feature of the May 2023 Notes and the May 2023 Warrants are no longer derivative liabilities and reclassified them to equity. The Company recognized a gain of \$5,107,794 for the change in the fair values of the conversion features of the May 2023 Notes for the year ended December 31, 2023.

Series A and Series B Warrants

As discussed in Note 9 below, the Company issued Series A and Series B Warrants (the “November 2023 Warrants”) in connection with the sale of common units and pre-funded warrant units. Under the terms of the November 2023 Warrants, the number and exercise price are subject to adjustment if the Company completes certain transactions specified in these warrant agreements. Such adjustments are subject to stockholder approval (which was received on January 12, 2024) and are further described in Note 9.

The Company has determined that these warrants should be classified as liabilities and has used a Monte Carlo simulation to estimate the fair value. The following assumptions were used in the valuations:

	<u>December 31, 2023</u>	<u>March 31, 2024</u>
Company stock price on valuation date	\$ 4.46	\$ 0.68
Volatility	141.4%	146.1%
Risk free interest rate	3.78%	4.14%
Dividend yield	0.00%	0.00%
Warrant term (years)	4.9	4.63
Time to future transaction (years)	0.63	0.25
Future transaction probability	75%	100%

In addition to the above factors, the Company also used a probability assessment for the initial and December 31, 2023 valuation to evaluate whether stockholder approval would be received on January 12, 2024 to lower the conversion and exercise prices. Management notes that at the time of the assessment, the stockholder vote had not yet started but there was a requirement in the offering that the board of directors, management, and a significant stockholder vote in favor of these adjustments which included approximately 20.1% of the shares outstanding as of the transaction date. Further, significant investors in the transaction held shares acquired prior to the record date for eligible stockholders to vote. Although these same investors could not vote the shares received in the November 17, 2023 offering, they could abstain from voting those shares for the stockholder vote and such shares would count towards whether a quorum of shares was received to hold the special meeting for the stockholder approval. Finally, management notes that approval was overwhelmingly positive to adjust the conversion price for the May 2023 Notes and May 2023 Warrants and exercise prices. The Company concluded that it was 100% likely that stockholders would approve the provisions to adjust the number of warrants and exercise price.

Based on the above factors, the estimated fair value of the Series A and Series B Warrant liabilities at December 31, 2023 and March 31, 2024 is as follows:

	<u>December 31, 2023</u>	<u>March 31, 2024</u>
Series A Warrant	\$ 0.2970	\$ 2.0400
Series B Warrant	\$ 0.0799	\$ 0.5845

The Company allocated the gross proceeds from the issuance of the common units and pre-funded warrant units based on the relative fair values from the November 17, 2023 valuation resulting in a value of \$10,990,530 and \$3,345,961 being allocated to the Series A and Series B warrants, respectively. An allocation of the issuance costs from the offering was made based on the relative fair values of the common stock, pre-funded warrants, Series A and Series B warrants and issuance costs of \$1,451,249 that were allocated to the Series A and Series B Warrants were expensed in the fourth quarter of 2023.

Based on the above factors, the estimated fair value of the Company's warrant liabilities carried at fair value March 31, 2024 is as follows:

Series A Warrants	\$	85,772
Series B Warrants		8,502,151
Total	\$	<u>8,587,923</u>

As discussed in Note 9, certain holders of the Series A and Series B Warrants exercised their warrants. The Company reclassified the fair value of the Series A Warrants exercised on a cashless basis to stockholders equity. The Company recognized a gain of \$165,355 from the exercise of the Series B Warrants based on the proceeds received from the exercise and the estimated fair value of the Series B Warrants on the date of exercise.

The following represents the activity associated with the Series A and Series B Warrants for the three months ended March 31, 2024:

	Series A	Series B	Total
Fair value on December 31, 2023	\$ 4,705,245	\$ 1,265,822	\$ 5,971,067
Gain on changes in fair value	12,733,180	7,271,162	20,004,342
Exercise of warrants	(17,352,653)	(34,833)	(17,387,486)
Balance at March 31, 2024	<u>\$ 85,772</u>	<u>\$ 8,502,151</u>	<u>\$ 8,587,923</u>

NOTE 8 – RELATED PARTY TRANSACTIONS

During 2022, the Company issued purchase orders and made prepayments for prototype parts of \$21,860 to a vendor that Pink Possum, LLC (“Pink Possum”) an entity controlled by Mr. Okonsky, one of the Company's founders, Chairman of the Board and former Chief Technology Officer, holds an equity interest of 25% as of March 31, 2024. This vendor is not expected to provide any additional prototype or production parts for the Stag.

In November 2020 and February 2021, the Company entered into operating leases with an entity controlled by the Company's two founders for its future headquarters and production facility in Liberty Hill, Texas. In October 2021, the Company began discussions for an additional amendment to the lease, in anticipation of manufacturing the Stag at this location, which would have resulted in the monthly payment of \$100,000 for the first year of the lease and increasing annually throughout the term of the lease to \$107,000 in the final year. Monthly payments for the initial lease and the amended agreement would have begun at the time a certificate of occupancy was received by the landlord. No monthly rent payments were made on these leases.

On April 27, 2022, the Company informed the landlord that it would be terminating the lease. On May 27, 2022, the landlord notified the Company that the landlord would refund \$85,756 of the prepaid rent and security deposit balance of \$601,818 paid by the Company and the Company recognized a loss on the unrefunded prepaid rent and security deposit amount in 2022. In October 2023, the landlord notified the Company that there were additional costs that exceeded the amount of the refund and the landlord released the Company from paying any amounts in excess of the original expected refund. The landlord also released the Company from any remaining obligations under the lease and amendments. The Company recognized a loss on the termination of this lease of \$85,756 in the year ended December 31, 2023.

On August 28, 2020, the Company entered into consulting agreements with Pink Possum, LLC (“Pink Possum”) an entity controlled by Mr. Okonsky, and Highbridge Consultants, LLC (“Highbridge”), an entity controlled by Mr. Adrian James, a co-founder of the Company, pursuant to which Messrs. Okonsky and James provide the Company with services in exchange for warrants. On March 26, 2021 and March 25, 2021, respectively, Pink Possum and Highbridge entered into amendments to the consulting agreements agreeing to exchange the original warrants for new ten-year warrants to purchase 21,112 and 27,778 shares, respectively, of common stock at an exercise price of \$220.50.

In addition, pursuant to the consulting agreements, upon the occurrence of a Fundamental Transaction (as defined below) for an aggregate gross sales price of \$100.0 million or more, each entity will receive a cash payment equal to 1% of such gross sales price. For the purposes of the consulting agreements, "Fundamental Transaction" means any of the following: (i) a consolidation or merger involving the Company if the holders of the voting securities of the Company that are outstanding immediately prior to the consummation of such consolidation or merger do not, immediately after the consummation of such consolidation or merger, hold voting securities that collectively possess at least a majority of the voting power of all the outstanding securities of the surviving entity of such consolidation or merger or such surviving entity's parent entity; (ii) a transfer or issuance (in a single transaction or series of related transactions) by one or more of the Company and its stockholders to one person or to any group of persons acting in concert, of shares of the Company's capital stock then collectively possessing 50% or more of the voting power of all then outstanding shares of the Company's capital stock (computed on an as-converted to common stock basis); or (iii) any sale, license, lease, assignment or other disposition of all or substantially all of the assets of the Company. Furthermore, commencing upon the completion of the Company's initial public offering of the shares of our common stock, if the Company's market capitalization exceeds \$300.0 million for a period of 21 consecutive trading days, each of the entities will receive an additional cash payment equal to \$15.0 million; provided that the Company will have the right, in its sole discretion, to make the foregoing \$15.0 million payment by the issuance of shares of the Company's common stock. The foregoing amounts will be payable to the entities if the above milestones occur any time prior to the ten-year anniversary of the original consulting agreements, or August 28, 2030.

In December 2022, the Company entered into an employment agreement with Mr. Okonsky whereby Mr. Okonsky became an employee on January 2, 2023 with an annual salary of \$170,000 and healthcare and other benefits that are also provided to all Company employees. The consulting agreement with Pink Possum was terminated upon execution of the employment agreement. However, the warrants to Pink Possum, and the provisions for a Fundamental Transaction and the market capitalization thresholds and related payments owed to Pink Possum if these were to occur remain in effect subsequent to the employment agreement. Mr. Okonsky informed the Company on January 27, 2024 that he would forfeit his salary and benefits effective February 1, 2024.

In March 2024, the Company entered into a consulting agreement with Mr. Okonsky and he is entitled to a monthly fee of \$5,000 and payment of 1% of the gross proceeds from any merger, sale or change of control transaction (as determined by the board of directors) entered by the Company for a period of up to 6 months following the termination of the consulting agreement. This consulting agreement terminates any remaining provisions of the Pink Possum agreement noted above other than the warrants remain outstanding.

NOTE 9 – STOCKHOLDERS' EQUITY

On June 14, 2023, the Company's stockholders approved an increase in the Company's authorized shares of common stock from 100,000,000 to 250,000,000. In addition, the Company is authorized to issue 5,000,000 shares of preferred stock with a par value of \$0.00001. The specific rights of the preferred stock, when so designated, shall be determined by the board of directors.

On October 13, 2023, the Company completed a reverse 1 for 5 stock split. On February 2, 2024, the Company completed a reverse 1 for 45 stock split. Any fractional shares as a result of the reverse stock splits were rounded up to one full share of common stock.

Common Stock

On May 24, 2023, the Company sold 26,667 shares of its common stock in a public offering at \$168.75 per share. The Company received net proceeds of \$3,998,685 after underwriter commissions and expenses of \$501,300.

On September 18, 2023, the Company sold 6,222 shares of its common stock in a public offering at \$112.50 per share. The Company received net proceeds of \$571,400 after underwriter commissions and expenses of \$128,600. The underwriter was also issued a warrant to purchase 1,245 shares of the Company's common stock at an exercise price of \$140.625 per share that expires 5.5 years from the date of issuance. The underwriter agreement provided the underwriter with a right of first refusal for any additional securities third-parties offerings within twelve months of this offering.

As discussed in Note 6 above, on May 24, 2023, the Company issued the May 2023 Notes and May 2023 Warrants, along with the warrants to the placement agent in August 2022 with the issuance of the Convertible Notes. The Company received consent from the underwriter to issue such securities. In addition, the Company was required to reserve 480,516 shares of common stock for future issuance of shares for the conversion of the May 2023 Notes and exercise of the May 2023 Warrants and 2,684 shares for the exercise of the placement agent warrants.

Series A Convertible Preferred Stock

On March 4, 2024, the Company designated 25,000 shares of preferred stock as Series A Convertible Preferred Stock with a par value of \$0.00001 per share and exchanged the remaining May 2023 Notes (principal of \$24,694,670) for Preferred Stock. For each \$1,000 of May 2023 Note principal, one share of Preferred Stock was issued with a stated value of \$1,000, and any principal held by an investor below \$1,000 was granted one additional share of Preferred Stock. A total of 24,698 shares were issued in connection with the exchange. The Preferred Stock is initially convertible into share of the Company's common stock at \$1.33 per share. Conversion of Preferred Stock to common stock of the Company by the holders of the Preferred Stock is limited based on ownership restrictions of either 4.99% or 9.99%. The conversion price is subject to adjustment for anti-dilution provisions with an initial floor of \$0.98 per share, subject to adjustment to \$0.50 per share if stockholder approval is received. The Company has included a proposal for stockholders to approve this adjustment in its 2024 annual meeting proposals. The 2024 annual meeting is expected to be held on May 28, 2024.

Through March 31, 2024, certain Preferred Stockholders converted \$2,287,600 in stated value (2,288 preferred shares) for 1,720,000 shares of common stock. During April 2024, certain Preferred Stockholders converted \$8,445,500 in stated value (8,446 preferred shares) for 6,350,000 shares of common stock based on the \$1.33 conversion price. The total number of shares of common stock issuable for the conversion of the remaining Preferred Stock as of May 6, 2024 is 10,497,424 based on the \$1.33 conversion price.

November 2023 Common Units and Pre-Funded Warrant Units

On November 17, 2023, the Company sold (i) 73,913 common units ("Common Units"), each consisting of one share of the Company's common stock, a Series A warrant to purchase one share of common stock at an initial exercise price of \$24.75 per share or pursuant to an alternative cashless exercise option (described below), which warrant will expire on the five-year anniversary of the original issuance date (the "Series A Warrants") and a Series B warrant to purchase one share of common stock at an initial exercise price of \$37.80 per share, which warrant will expire on the five-year anniversary of the original issuance date (the "Series B Warrants" and together with the Series A Warrants, the "Warrants"); and (ii) 878,469 pre-funded units (the "Pre-funded Units" and together with the Common Units, the "Units"), each consisting of one pre-funded warrant to purchase one share of common stock (the "Pre-funded Warrants"), a Series A Warrant and a Series B Warrant. The purchase price of each Common Unit was \$18.90, and the purchase price of each Pre-Funded Unit was \$18.8996. The Pre-Funded Warrants are immediately exercisable and may be exercised at any time until all of the Pre-Funded Warrants are exercised in full. As of December 31, 2023, 804,618 of the Pre-Funded Warrants were exercised and the remaining Pre-Funded Warrants were exercised by January 9, 2024.

In addition, the Company granted the underwriter a 45-day option to purchase additional 142,858 shares of common stock and/or Pre-Funded Warrants, representing up to 15% of the number of common stock and Pre-Funded Warrants sold in the Public Offering, and/or additional 18,724 Series A Warrants representing up to 15% of the Series A Warrants sold in the Public Offering, and/or additional 18,724 Series B Warrants representing up to 15% of the Series B Warrants sold in the Public Offering solely to cover over-allotments, if any. The underwriter partially exercised its over-allotment option with respect to 18,724 Series A Warrants and Series B Warrants. A total of 352,057 each of Series A and B Warrants were issued in the transaction. The net proceeds were approximately \$16.2 million (gross proceeds of \$18.0 million less fees and expenses of \$1.8 million). The gross proceeds and transaction cost were allocated to each of the instruments issued in the offering at their estimated relative fair values. Transaction costs totaling \$1,444,547 related to the Series A and Series B Warrants were expensed since these warrants were determined to be liabilities and recorded at their estimated fair values (see Note 7).

Series A Warrants

Each Series A Warrant has an initial exercise price per share equal to \$24.75, was immediately exercisable upon issuance, and will expire on the five-year anniversary of the original issuance date, or November 17, 2028.

Share Combination Event Adjustments

Conditioned upon the receipt of the Warrant Stockholder Approval at a required special meeting of stockholders (“Special Meeting”), if at any time on or after the date of issuance there occurs any share split, share dividend, share combination, recapitalization or other similar transaction involving the Company’s common stock (collectively a “Share Event”) and the lowest daily VWAP during the five consecutive trading days prior to the date of such event and the five consecutive trading days after the date of such event is less than the exercise price then in effect, then the exercise price of the Series A Warrant shall be reduced to the lowest daily VWAP during such period and the number of warrant shares issuable shall be increased such that the aggregate exercise price payable thereunder, after taking into account the decrease in the exercise price, shall be equal to the aggregate exercise price on the date of issuance. Approval of this adjustment by the stockholders was made on January 12, 2024.

Cashless Exercise

If at the time a holder exercises its Series A Warrants, a registration statement registering the issuance of the shares of common stock underlying the Series A Warrants under the Securities Act is not then effective or available and an exemption from registration under the Securities Act is not available for the issuance of such shares, then in lieu of making the cash payment otherwise contemplated to be made to us upon such exercise in payment of the aggregate exercise price, the holder may elect instead to receive upon such exercise (either in whole or in part) the net number of shares of common stock determined according to a formula set forth in the Series A Warrants.

Conditioned upon the receipt of the Warrant Stockholder Approval at a required Special Meeting, a holder of Series A Warrants may also provide notice and elect an “alternative cashless exercise” pursuant to which they would receive an aggregate number of shares equal to the product of (x) the aggregate number of shares of common stock that would be issuable upon a cash exercise of the Series A Warrant and (y) 3.0. Approval of this adjustment by the stockholders was made on January 12, 2024.

Adjustments and Activity Subsequent to December 31, 2023

As discussed above, the Company completed a 1 for 45 reverse stock split on February 2, 2024. Prior to this reverse split, 18,941 Series A Warrants were exercised under the alternative cashless exercise provision in the period from January 1, 2024 to February 2, 2024. As a result of the reverse stock split, the total number of Series A Warrants and exercise price for the remaining warrants was adjusted per the provisions of a Share Event and the total number of Series A Warrants became 3,979,955 and the exercise price became \$1.8646. A total of 3,937,910 of the Series A Warrants were exercised under the alternative cashless exercise provision subsequent to the reverse stock split and 42,045 remain outstanding as of March 31, 2024.

Series B Warrants

Each Series B Warrant offered has an initial exercise price per share equal to \$37.80, was immediately exercisable upon issuance, and will expire on the five-year anniversary of the original issuance date, or November 17, 2028.

Anti-Dilution Provisions

Subject to certain exemptions outlined in the Series B Warrant, for the life of the warrant, if the Company sells, enters into an agreement to sell, or grants any option to purchase, or sells, enters into an agreement to sell, or grants any right to reprice, or otherwise disposes of or issue (or announce any offer, sale, grant or any option to purchase or other disposition) any common stock or convertible security, at an effective price per share less than the exercise price of the Series B Warrant then in effect (a “Dilutive Issuance”), the exercise price of the Series B Warrant will be reduced to an amount equal to the lowest daily VWAP during the period commencing five consecutive trading days following the Dilutive Issuance, subject to a floor price of \$0.13; provided that upon the receipt of the Warrant Stockholder Approval at a required Special Meeting (approved on January 12, 2024), the floor price will be removed and, upon a Dilutive Issuance, the number of shares issuable upon exercise of the Series B Warrant shall be proportionally adjusted so that the aggregate exercise price of the Series B Warrant shall remain unchanged.

In addition, conditioned upon the receipt of the Warrant Stockholder Approval at the Special Meeting (approved on January 12, 2024), for the life of the Series B Warrant, the Company may voluntarily reduce the exercise price of the Series B Warrant. The Company refers to this price adjustment feature as the “Voluntary Adjustment Provision”.

Share Combination Event Adjustments

Conditioned upon the receipt of the Warrant Stockholder Approval (approved on January 12, 2024), if at any time on or after the date of issuance there occurs any share split, share dividend, share combination, recapitalization or other similar transaction involving the Company’s common stock (collectively a “Share Event”) and the lowest daily VWAP during the five consecutive trading days prior to the date of such event and the five consecutive trading days after the date of such event is less than the exercise price then in effect, then the exercise price of the Series B Warrant shall be reduced to the lowest daily VWAP during such period and the number of warrant shares issuable shall be increased such that the aggregate exercise price payable thereunder, after taking into account the decrease in the exercise price, shall be equal to the aggregate exercise price on the date of issuance.

As a result of the reverse 1 for 45 stock split completed on February 2, 2024, the total number of Series B Warrants and exercise price for the remaining warrants was adjusted per the provisions of a Share Event and the total number of Series B Warrants became 7,137,082 and the exercise price became \$1.8646. A total of 70,000 of the Series B Warrants were exercised for proceeds of \$130,522 and 7,067,062 remained outstanding as of March 4, 2024, when the Company exchanged the May 2023 Notes for Series A Convertible Preferred Stock with a conversion price of \$1.33 per share, as discussed above. As a result of this exchange, the Series B Warrant amounts and exercise price were further adjusted based on the Anti-Dilution Provisions and the new number of Series B Warrants is 14,546,024 and the exercise price is \$0.9059. As of March 31, 2024, 14,546,024 of the Series B Warrants remain outstanding.

Other Warrants

As discussed in Note 6, the Company issued the Note Warrants, which were fully vested, to purchase 40,258 shares of the Company’s common stock at an initial exercise price of \$641.25. The Note Warrants expire August 24, 2027. Also, the Company issued to the placement agent of the Convertible Notes, fully vested warrants to purchase 2,684 shares of the Company’s common stock at an exercise price of \$801.5625. The warrants were not exercisable until February 24, 2023 and expire on February 24, 2028. The Company valued all of these warrants using the closing price of the Company’s common stock on August 24, 2022 of \$549.00, volatility of 79.81% based on peer companies, risk free interest rate of 3.03%, no dividends and an estimated life of 2.5 years.

In May 2023, all of the Note Warrants to purchase 40,258 shares of the Company’s common stock were exchanged for Exchange Warrants to purchase 75,814 shares of the Company’s common stock with an initial exercise price of \$245.25 per share (which was adjusted to \$168.75 per share upon stockholder approval which was received on August 3, 2023). The Exchange Warrants expire August 24, 2027. Also in May 2023, in connection with the issuance of the New Notes, the Company also issued New Warrants (together with the Exchange Warrants the “May 2023 Warrants”) to purchase 24,157 shares of common stock at an initial exercise price of \$245.25 (which was adjusted to \$168.75 per share upon stockholder approval which was received on August 3, 2023). The exercise price of the May 2023 Warrants were further adjusted due to the reverse 1 for 5 and 1 for 45 reverse stock splits completed in October 2023 and February 2024, and for the issuance of the Preferred Stock discussed above. The exercise price for the May 2023 Warrants as of March 31, 2024 are \$1.33.

As noted below, 6,824 of the Exchange Warrants were exercised at a price of \$78.75 per share and 6,824 Reload Warrants were issued with an exercise price of \$112.50 per share. In October 2023, the Reload warrant exercise price was reduced to \$61.605. The Reload warrants expire August 24, 2027. Due to the exchange of the May 2023 Notes for Series A convertible preferred stock as discussed above, the exercise price of the Reload Warrants was adjusted to \$1.33.

On October 11, 2023, the Company entered into an amendment (the “Amendment”) to its Stag UTV development and Stag supplier agreements with GLV Ventures (“GLV”). Pursuant to the Amendment, GLV agreed to provide the Company with extended payment terms and provide the Company with credit against new vehicles for the value of certain parts purchased by the Company. In consideration for entering into the Amendment No. 1, the Company agreed to issue GLV (or its designee) five-year warrants to purchase 8,889 shares of Company common stock with an exercise price of \$94.50 per share, which was equal to the closing price of the Company’s common stock on the date of the Amendment No. 1, 4,445 shares were fully vested upon issuance and the remaining warrants vested 45 days from the issuance date.

Warrant Inducements

On October 13, 2023, the Company entered into an inducement offer letter agreement (the “Inducement Letter”) with the three holders (each, a “Holder”) of the May 2023 Warrants. The Company agreed to reduce the exercise price of up to 21,623 to the lesser of (i) \$78.75 (after giving effect to the 1:5 reverse stock split that went into effect on October 13, 2023) and (ii) the exercise price in effect at the time of exercise of the Existing Warrants if further adjusted in accordance with the terms of the May 2023 Warrants (\$61.605 per share after adjustment for the lowest day’s VWAP for the five days following the reverse stock split). The reduction of the exercise price of such Existing Warrants remained in effect until October 27, 2023 (the “Inducement Period”). The exercise price for any Warrants not exercised prior to the end of the Inducement Period would not result in a change in the exercise price under the original terms of the Existing Warrants. The Holders exercised 6,824 warrants of the 21,623 warrants available for exercise. Due to the exchange of the May 2023 Notes for Series A convertible preferred stock as discussed above, the exercise price of the warrants issued for those exercised in the Inducement Period were adjusted to \$1.33.

In addition, pursuant to the Inducement Letter, the Holders who exercise such Existing Warrants for cash on or prior to October 27, 2023 would receive a new warrant (“Reload Warrant”) to purchase a number of shares of common stock equal to the number of shares of common stock exercised under the Existing Warrants. The exercise price of the Reload Warrants was determined based on the terms of the Existing Warrants, which was \$61.605 per share. On October 20, 2023, the Holders exercised 2,332 warrants at \$61.605 per share. Due to the exchange of the May 2023 Notes for Series A convertible preferred stock as discussed above, the exercise price of the Reload Warrants was adjusted to \$1.33.

On October 29, 2023, in an effort to raise cash, the Company entered into an inducement offer letter agreement (the “Inducement Reprice Letter”) with the Holders of the Company’s May 2023 Warrants. Pursuant to the Inducement Reprice Letter, in exchange for an aggregate cash payment of \$346,500, the Company reduced the exercise price with respect to May 2023 Warrants exercisable into an aggregate of 7,778 shares of common stock from \$61.605 per share to \$0.45 per share. On January 10, 2024, the Holders exercised these warrants.

The following is the activity related to common stock warrants during the three months ended March 31, 2024:

	Common Stock Warrants			
	Shares	Weighted Average Exercise Price	Weighted Average Remaining Life in years	Intrinsic Value
Outstanding at January 1, 2024	5,612,087	\$ 7.04		
Granted	13,309,605	\$ 1.05		
Canceled	–	\$ –		
Expired	–	\$ –		
Exercised	(4,204,501)	\$ 2.15		
Outstanding at March 31, 2024	14,717,191	\$ 1.62	4.63	\$ –
Exercisable at March 31, 2024	14,717,191	\$ 1.62	4.63	\$ –

NOTE 10 – STOCK-BASED COMPENSATION

In January 2021, the Company’s board of directors adopted the Volcon, Inc. 2021 Stock Plan, (the “2021 Plan”). The 2021 Plan is a stock-based compensation plan that provides for discretionary grants of stock options, stock awards, and restricted stock unit awards to employees, members of the board of directors and consultants (including restricted stock units issued prior to the adoption of the plan as further discussed below). The Company has reserved 31,112 shares of the Company’s common stock for issuance under the 2021 Plan. To the extent that an award, if forfeitable, expires, terminates or lapses, or an award is otherwise settled in cash without the delivery of shares of common stock to the participant, then any unpaid shares subject to the award will be available for future grant or issuance under the 2021 Plan. Shares available for issuance under the 2021 Plan as of March 31, 2024, were 13,519 shares. Awards vest according to each agreement and as long as the employee remains employed with the Company or the consultant continues to provide services in accordance with the terms of the agreement.

Restricted Stock Units

There were no restricted stock units outstanding during the three months ended March 31, 2024 and no expense was recognized in the period. In February 2023, 112 RSUs were subject to cancellation due to termination of employment. However, the Company entered into a modification to allow the employee to fully vest in these RSUs as part of a severance agreement. The Company recorded additional expense of \$31,487 during the three months ended March 31, 2023 related to this modification.

For the three months ended March 31, 2023, total expense for RSUs was \$53,773.

Performance Shares

In 2022 the compensation committee approved reserving 1,112 shares from the 2021 Plan to issue based on achievement of the Company’s 2022 performance milestones to employees who are employed in 2022 and are active employees on the date of approval in 2023 by the compensation committee. On February 6, 2023 the compensation committee of the board of directors approved a grant of 689 shares (618 were issued due a forfeiture of 3 shares and 68 shares withheld for payment of employee withholding taxes) for the achievement of some of the Company’s 2022 performance milestones. The Company recognized share-based compensation expenses of \$257,717 related to the grant of these shares in the quarter ended March 31, 2023.

In addition, the compensation committee also approved reserving 1,112 shares from the 2021 Plan to issue to employees based on achievement of the Company’s 2023 performance milestones to employees who are employed in 2023 and are active employees on the date of approval in 2024 by the compensation committee. No shares were approved for grant by the compensation committee for 2023 performance milestones.

Stock Options

The following summarizes activity relating to common stock options to employees and consultants for services during the three months ended March 31, 2024:

	Common Stock Options			
	Shares	Weighted Average Exercise Price	Weighted Average Remaining Life in years	Intrinsic Value
Outstanding at January 1, 2024	19,066	\$ 407.97		
Granted	45	\$ 4.50		
Forfeited	(4,699)	\$ 485.28		
Exercised	–	\$ 0.00		
Outstanding at March 31, 2024	14,412	\$ 381.55	8.40	\$ 0.00
Exercisable at March 31, 2024	7,691	\$ 528.26	7.85	\$ 0.00

The Company valued the options using the closing stock price of the Company's common stock on the date of grant and the following assumptions:

	2024	2023
Volatility (based on the Company's volatility in 2024 and peer companies in 2023)	170%	79% - 83%
Risk free interest rate	4.5%	3.54% - 4.77%
Dividends	None	None
Estimated life in years	6	6

During the three months ended March 31, 2024 and 2023, the Company recognized share-based compensation (benefit) expense of \$(1,922) and \$745,943, respectively, related to common stock options. The share-based compensation benefit for the three months ended March 31, 2024 is primarily due to forfeiture of unvested stock options from employees who terminated during the period which offset the expense from stock options outstanding with current employees. The Company expects to recognize additional compensation expense of \$421,863 related to these common stock options assuming all awards will vest.

Total stock-based compensation recorded for the three ended March 31, 2024 and 2023 for all stock based compensation awards, including warrants, has been recorded as follows:

	Three Months Ended March 31, 2024	Three Months Ended March 31, 2023
Cost of Goods Sold	\$ (10,642)	\$ 206,477
Sales and Marketing	(55,071)	311,759
Product Development	42,604	208,594
General and Administrative	21,187	303,605
Total	<u>\$ (1,922)</u>	<u>\$ 1,057,435</u>

NOTE 11 – LOSS PER COMMON SHARE

The basic net loss per common share is calculated by dividing the Company's net loss available to common stockholders by the weighted average number of common shares during the year. The diluted net loss per common share is calculated by dividing the Company's net loss available to common stockholders by the diluted weighted average number of common shares outstanding during the year. The diluted weighted average number of common shares outstanding is the basic weighted number of common shares adjusted for any potentially dilutive debt or equity. Diluted net loss per common share is equal to basic net loss per share due to the Company's net loss and any potentially issuable shares are anti-dilutive.

	Three Months Ended March 31, 2024	Three Months Ended March 31, 2023
Numerator:		
Net loss	\$ (26,048,044)	\$ (7,299,469)
Denominator:		
Denominator for basic and diluted net loss per common share - weighted average of common shares	7,968,457	109,046
Basic and diluted net loss per common share	\$ (3.27)	\$ (66.94)

Common shares consisting of shares potentially dilutive as of three months ended March 31, 2024 and 2023 are as follows:

	2024	2023
Convertible Notes	–	53,677
Warrants	14,717,191	67,048
Stock options	14,412	15,136
Preferred stock	16,849,627	–
Restricted stock units	–	223
Total	<u>31,581,230</u>	<u>136,084</u>

NOTE 12 – INCOME TAXES

Deferred taxes are determined by applying the provisions of enacted tax laws and rates for the jurisdictions in which the Company operates to the estimated future tax effects of the differences between the tax basis of assets and liabilities and their reported amounts in the Company's financial statements. A valuation allowance is established to reduce deferred tax assets if it is more likely than not that the related tax benefits will not be realized.

Due to losses since inception and for all periods presented, no income tax benefit or expense has been recognized as a full valuation allowance has been established for any tax benefit that would have been recognized for the loss in any period presented.

The components of income tax expense (benefit) for the three months ended March 31, 2024 and 2023 are as follows:

	2024	2023
Expected federal income tax benefit at statutory rate	\$ 5,470,089	\$ 1,532,888
Non-deductible expenses	33,156	(119,814)
Research and development credit	–	148,811
Prior year true up	(532,317)	–
Change in valuation allowance	(4,970,928)	(1,561,886)
Income tax benefit	<u>\$ –</u>	<u>\$ –</u>

Significant components of the Company's deferred tax assets and liabilities at March 31, 2024 and December 31, 2023 are as follows:

	March 31, 2024	December 31, 2023
Deferred tax assets		
Net operating losses	\$ 15,508,801	\$ 15,468,757
Debt basis difference	–	5,121,397
Depreciation and amortization	1,561,453	1,701,768
Research & development credit	1,099,535	1,099,535
Lease liability	226,567	246,704
Stock-based compensation	3,235,732	3,235,732
Inventory	122,199	152,749
Accrued expenses	88,293	66,909
Capital loss carryover	176,950	176,950
Dealer rebates	347,760	459,713
Other	26,108	21,828
Total	<u>22,393,398</u>	<u>27,752,042</u>
Valuation allowance	(21,899,150)	(27,171,016)
Net deferred tax asset	494,248	581,026
Deferred tax liabilities		
Prepaid expenses	(275,927)	(342,421)
Right-of-use assets	(218,321)	(238,605)
Total net deferred taxes	<u>\$ –</u>	<u>\$ –</u>
Deferred tax liabilities	<u>\$ –</u>	<u>\$ –</u>

Management currently believes that since the Company has a history of losses it is more likely than not that the deferred tax regarding the loss carry forwards and other temporary differences will not be realized in the foreseeable future. The utilization of the Company's net operating losses and credit carryovers may be subject to limitation due to the "change in ownership provisions" under Section 382 of the Internal Revenue Code. The Company's cumulative net operating loss carry forward of \$98.3 million as of March 31, 2024, may be limited in future years depending on future taxable income in any given fiscal year. The net operating losses can be carried forward indefinitely.

The Company has recorded no liability for income taxes associated with unrecognized tax benefits at the date of adoption and has not recorded any liability associated with unrecognized tax benefits. Accordingly, the Company has not recorded any interest or penalty in regard to any unrecognized benefit.

NOTE 13 – LEASES

The components of lease cost for operating leases for the three months ended March 31, 2024 and 2023 were as follows:

	Three Months Ended March 31, 2024	Three Months Ended March 31, 2023
Lease Cost		
Operating lease cost	\$ 117,249	\$ 117,249
Short-term lease cost	37,961	59,790
Variable lease cost	–	–
Sublease income	–	–
Total lease cost	<u>\$ 155,210</u>	<u>\$ 177,039</u>

Supplemental cash flow information related to leases for the three months ended March 31, 2024 and 2023, was as follows:

	March 31, 2024	March 31, 2023
Other Lease Information		
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 95,891	\$ 86,031
Amortization of right-of-use assets	\$ 96,588	\$ 90,057

The following table summarizes the lease-related assets and liabilities recorded on the balance sheet at March 31, 2024 and December 31, 2023:

	March 31, 2024	December 31, 2023
Lease Position		
Operating Leases:		
Operating lease right-of-use assets	\$ 1,039,625	\$ 1,136,213
Right-of-use liabilities operating leases short-term	410,221	399,611
Right-of-use liabilities operating leases long-term	668,669	775,170
Total operating lease liabilities	<u>\$ 1,078,890</u>	<u>\$ 1,174,781</u>

The Company utilizes the incremental borrowing rate in determining the present value of lease payments unless the implicit rate is readily determinable.

Lease Term and Discount Rate	March 31, 2024
Weighted-average remaining lease term (years):	
Operating leases	2.4
Weighted-average discount rate:	
Operating leases	6.82%

The following table provides the maturities of lease liabilities at March 31, 2024:

	Operating Leases
Remainder of 2024	\$ 355,082
2025	485,702
2026	340,591
Total future undiscounted lease payments	1,181,375
Less: Interest	(102,485)
Present value of lease liabilities	<u>\$ 1,078,890</u>

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis is intended as a review of significant factors affecting the Company's financial condition and results of operations for the periods indicated. This discussion and analysis should be read in conjunction with the financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and the Company's Annual Report on Form 10-K, which contains audited financial statements of the Company as of and for the year ended December 31, 2023, previously filed with the Securities and Exchange Commission. Results for the three months ended March 31, 2024 are not necessarily indicative of results for the year ending December 31, 2024 or any future period.

Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q, together with other statements and information publicly disseminated by the Company, contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions.

In addition, from time to time, we or our representatives may make forward-looking statements orally or in writing. We base these forward-looking statements on our expectations and projections about future events, which we derive from the information currently available to us. Such forward-looking statements relate to future events or our future performance, including: our financial performance and projections; our growth in revenue and earnings; our product development and production releases; and our business prospects and opportunities. You can identify forward-looking statements by those that are not historical in nature, particularly those that use terminology such as "may," "should," "expects," "anticipates," "contemplates," "estimates," "believes," "plans," "projected," "predicts," "potential," or "hopes" or the negative of these or similar terms. In evaluating these forward-looking statements, you should consider various factors, including: our ability to change the direction of the Company; our ability to keep pace with new technology and changing market needs; and the competitive environment of our business. These and other factors may cause our actual results to differ materially from any forward-looking statement. Forward-looking statements are only predictions. The forward-looking events discussed in this document and other statements made from time to time by us or our representatives, may not occur, and actual events and results may differ materially and are subject to risks, uncertainties and assumptions about us. We are not obligated to publicly update or revise any forward-looking statement, whether as a result of uncertainties and assumptions, the forward-looking events discussed in this document and other statements made from time to time by us or our representatives might not occur.

While we believe we have identified material risks, these risks and uncertainties are not exhaustive. Other sections of this Form 10-Q describe additional factors that could adversely impact our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. We are under no duty to update any of these forward-looking statements after the date of this Form 10-Q to conform our prior statements to actual results or revised expectations, and we do not intend to do so.

Forward-looking statements include, but are not limited to, statements about:

- our ability to maintain the listing of our common stock on the Nasdaq Stock Market;
- our ability to generate revenues from sales, generate cash from operations, or obtain additional funding to market our vehicles and develop new products;
- our ability to successfully implement and effectively manage our outsourced manufacturing, design and development model and achieve any anticipated benefits;
- the ability of third party manufacturers to produce our vehicles in accordance with our design and quality specifications, with sufficient scale to satisfy customers and within a reasonable cost;
- anticipated timing for the manufacture, design, production, shipping and launch of our vehicles;
- the inability of our suppliers to deliver the necessary components for our vehicles at prices and volumes acceptable to our third party manufacturers;
- our ability to establish a network of dealers and international distributors to sell and service our vehicles on the timeline we expect;
- whether our vehicles will perform as expected;
- our facing product warranty claims or product recalls;
- our facing adverse determinations in significant product liability claims;
- customer adoption of electric vehicles;
- the development of alternative technology that adversely affects our business;
- increased government regulation of our industry;
- tariffs and currency exchange rates;
- the conflict with Russia and Ukraine and the potential adverse effect it may have on the availability of materials used in the manufacturing of batteries for our vehicles; and
- our ability to maintain our listing on Nasdaq.

Overview

We are an all-electric, off-road powersports vehicle company developing electric two and four-wheel motorcycles and utility terrain vehicles, or UTVs, also known as side-by-sides, along with a line of upgrades and accessories. In October 2020, we began building and testing prototypes for our future offerings with two off-road motorcycles – the Grunt and the Runt. Our motorcycles feature unique frame designs protected by design patents. Additional utility and design patents have been filed for other aspects of Volcon's vehicles.

Initially, we began to sell and distribute the Grunt and related accessories in the United States on a direct-to-consumer sales platform. However, we terminated our Grunt direct-to-consumer sales platform in November 2021. Beginning in November 2021, we began negotiating dealership agreements with powersports dealers to display and sell our vehicles and accessories. Customers can now, or will soon be able to, buy our vehicles and accessories directly from a local dealership. Some of these dealers will also provide warranty and repair services to customers. As of May 3, 2024, we have 105 active dealers. Dealers can order any of our available products provided they are current on their accounts receivable and are within their established credit limit. We are offering dealers payment terms 30 to 90 days to make larger purchases of our vehicles. We have entered into an accounts receivable factoring arrangement to allow the Company the ability to generate cash for working capital. We have agreements with third party financing companies to provide financing to qualified customers of each dealer. There is no recourse to the Company or the dealer if the dealer's customer defaults on the financing agreement with the third party.

We sell our vehicles internationally through importers. Each importer buys vehicles by the container and sells vehicles and accessories to local dealers or directly to consumers. Local dealers or the importer will provide warranty and repair services for vehicles purchased in their country. In October 2023, we made a decision to postpone expanding our dealer network in Canada for the foreseeable future and we have terminated the employment of our Canadian regional sales managers. As of March 31, 2024, we have signed agreements with six importers in Latin America, one importer for the Caribbean Region, collectively referred to herein as the LATAM importers, one importer in New Zealand, and one importer in Australia to sell our vehicles and accessories in their assigned countries/markets. In 2024, we expect to expand our global sales of our vehicles and accessories beyond our current distributor base.

In June 2022, we signed an exclusive distribution agreement with Torrot Electric Europa S.A., referred to herein as Torrot, to distribute their electric motorcycles for youth riders in Latin America. In October 2022, we signed an expanded agreement with Torrot, which superseded the June 2022 agreement, to also be the exclusive distributor of Torrot and Volcon co-branded youth electric motorcycles in the U.S. as well as Latin America. Finally, in December 2022, we signed an expanded agreement with Torrot to be the exclusive distributor of Volcon co-branded youth electric motorcycles in Canada. In June 2023, we wrote down all remaining Torrot branded inventory in the amount of \$84,000. In December 2023 we notified Torrot that we were terminating our agreements due to continued lower than expected sales at significantly discounted pricing. In 2023, we wrote down the Volcon co-branded Torrot youth motorcycles by \$2,674,352 to reduce their cost to the estimated net realizable value due to lower than expected sales. We have agreed to give Torrot a total of 1,000 Volcon branded Torrot motorcycles originally purchased for \$1.8 million, an up front payment of \$370,000 and an additional \$1.7 million to be paid out at \$100,000 per month over 17 months beginning in April 2024 in exchange for unfulfilled 2023 and 2024 unit purchases. As of March 31, 2024, we have Volcon Youth finished goods inventory of approximately \$175,000, after reducing these to the estimated net realizable value, of Volcon branded Torrot motorcycles and accessories which we intend to liquidate and we have agreed to give Torrot sales rights in the U.S., Canada and LATAM after June 30, 2024.

In July 2022, we expanded our offerings with the introduction of the first of our Volcon UTV models, the Stag. We delivered the first Stag to a customer in February 2024. The Stag is being manufactured by a third party and incorporates electrification units, which include batteries, drive units and control modules provided by General Motors. Beginning in June 2022, we took non-binding pre-production orders which were cancelable prior to delivery. In the third quarter of 2023 we canceled all of the original pre-production orders due to the introduction of multiple models and new pricing. We began taking new pre-production orders for the newly introduced models in the third quarter of 2023, which are limited to the Stag LTD as of March 31, 2024.

In August 2022, we ceased manufacturing of the Grunt and we outsourced the manufacturing of the remaining Grunts and the 2023 Grunt EVO to the same third party manufacturer as the Stag. The 2023 Grunt EVO has replaced the Grunt and has a belt drive rather than a chain drive as well as an updated rear suspension. We began selling the Grunt EVO in the third quarter of 2023.

We began taking pre-orders for an E-Bike, the Brat, in September 2022 and shipments to customers began in the fourth quarter of 2022. The Brat is being manufactured by a third party. In January 2023, we began selling the Brat directly to consumers through our website. Consumers who order the Brat from our website can have the Brat shipped to their specified destination.

After evaluating the sales potential for the Runt LT, we have determined that we will not sell this product and have ceased all development efforts for it.

The estimated fulfillment of all orders we have received assumes that our third party manufacturers can successfully meet our order quantities and deadlines. If they are unable to satisfy orders on a timely basis, our customers may cancel their orders.

In September and October 2023, we reduced our headcount in several departments to reduce costs and we continue to evaluate other cost reduction opportunities.

Results of Operations

The following financial information is for the three months ended March 31, 2024 and 2023.

	Three Months Ended	
	March 31, 2024	March 31, 2023
Revenue	\$ 1,033,548	\$ 1,170,458
Cost of goods sold	(1,621,580)	(1,229,981)
Gross margin	(588,032)	(59,523)
Operating expenses:		
Sales and marketing	760,564	1,789,370
Product development	814,945	1,786,351
General and administrative expenses	2,080,794	1,890,091
Total operating expenses	3,656,303	5,465,812
Loss from operations	(4,244,335)	(5,525,335)
Interest and other expense	(21,803,709)	(1,774,134)
Net loss	<u>\$ (26,048,044)</u>	<u>\$ (7,299,469)</u>

Revenue

Revenue for the three months ended March 31, 2024, was \$1,033,548 which represents sales of Grunt EVOs of \$329,617, Stag of \$39,999, Brats of \$532,806, Volcon Youth of \$93,757, and accessories and parts of \$34,103.

Revenue for the three months ended March 31, 2023, was \$1,170,458 which represents sales of Grunts of \$170,388, Brats of \$657,516, Volcon Youth of \$212,365 and accessories and parts of \$127,496.

Cost of Goods Sold

Cost of goods sold for the three months ended March 31, 2024 were \$1,621,580, including payroll costs of \$94,320, which was partially offset by a stock-based compensation benefit of \$10,641, for employees performing product fulfillment, logistics management, and service and warranty. Product costs for Brats and Grunt EVOs, sold during the period were \$582,550 and \$343,981, respectively. Stag product costs were \$228,893 which included costs for the one Stag sold in the amount of \$43,412 and \$10,429 for customized inventory related to the sale of the Stag. Also Included in the Stag product costs is \$95,548 of expense related to accruing a loss on sales of units to a customer who initially ordered models that we will not be producing. The Company offered to substitute additional units of the Stag LTD at no additional charge to replace those units. Also relating to Stag costs is \$52,503 in inbound freight and tariffs for Stag raw materials. Facilities costs for the three months ended March 31, 2024 were \$105,950 for our warehouse facility and third party warehousing costs.

Cost of goods sold for the three months ended March 31, 2023 were \$1,229,981 including labor costs of \$402,104 for employees and contractors performing assembly and quality control testing of Grunts and stock-based compensation of \$206,477 for share-based awards for employees. Part costs for Grunts sold during the period was \$165,842. We paid \$53,507 for fees owed to cancel purchase orders to reduce raw material quantities ordered to expected demand. Facilities costs were \$122,311 for our warehouse facility and third party warehousing costs. Net inbound and outbound shipping costs, duties and tariffs for inventory purchases and shipments to customers was a credit of \$278,774 primarily due to the reversal of an accrual for shipping costs and tariffs expected to be incurred to ship our Grunt raw materials and work-in-process inventory to our third party manufacturer in Mexico which was no longer needed once manufacturing was moved to Arizona.

For the remainder of 2024 we expect revenue and cost of goods sold, to increase due to the expected increase in sales of the Grunt EVO and Stag. Additional cost savings may be realized if the third party manufacturer can source or manufacture parts at a lower cost. The increase in costs for products will partially be offset by reductions in cost for salaries and benefits due to reductions in headcount completed in 2023.

Sales and Marketing Expense

Sales and marketing expenses relate to costs to increase exposure and awareness for our products and developing our network of U.S. dealers and international distributors.

Sales and marketing expenses were \$760,564 for the three months ended March 31, 2024 and were primarily related to expenses associated with promoting our products and brand of \$215,429, employee payroll costs of \$453,191, including \$112,500 for severance costs for our former chief marketing officer (“CMO”), which was partially offset by stock-based compensation benefit of \$55,071 for cancelation of unvested share based awards to the CMO and other marketing employees whose positions were eliminated in the period and the CMO’s unvested share based awards.

For the three months ended March 31, 2023, sales and marketing expenses were \$1,789,370 and include \$588,321 for promoting our products and brand, \$723,362 for employee payroll costs, stock-based compensation expense of \$311,759 for share-based awards granted to employees and consultants, \$38,452 related to facilities costs, and travel costs of \$71,243 primarily related to costs incurred for travel to build our dealer and distributor network.

We also expect sales expenses to increase as we begin expanding our international distributors and selling commissions for increased sales of Grunt EVOs and the Stag offset by overall lower expenses as we seek to reduce costs.

Product Development Expense

Product development expenses relate to development and testing of our products and process to manufacture these products.

Product development expenses were \$814,945 for the three months ended March 31, 2024 and were primarily related to expenses associated with employee payroll costs of \$436,902, stock-based compensation of \$42,604 for share-based awards granted to employees, facilities costs of \$63,856, travel costs primarily related to beginning production of Stag of \$53,326 and prototype costs of \$91,925.

For the three months ended March 31, 2023, product development expenses totaled \$1,786,351 and primarily relate to expenses associated with employee payroll costs of \$507,676, stock-based compensation of \$208,592 for share-based awards granted to employees and consultants, professional fees of \$81,651 for digital consultants, \$37,500 for recruiting fees, research and development costs of \$266,829, prototype parts and tooling costs of \$543,616, facilities cost of \$47,823 and \$50,634 for supplies, parts and software.

We expect 2024 product development costs related to employee costs to remain consistent with 2023. We expect costs to decrease for design and development costs and costs related to prototype costs for the current version of the Stag since the Stag is in production. We expect costs for design and development costs related to the Grunt EVO to decrease since it is in production. We expect design and development costs to increase for development of other versions of our UTV and motorcycle lineup being considered for future release.

General and Administrative Expense

General and administrative expenses relate to costs for our finance, accounting and administrative functions to support the development, manufacturing and sales of our products.

For the three months ended March 31, 2024, general and administrative expenses were \$2,080,794 and were primarily related to expenses associated with employee payroll costs of \$579,363, stock-based compensation of \$21,187 for share-based awards granted to employees, professional fees of \$412,715 (including legal fees of \$195,377, tax and accounting fees of \$23,200 and audit fees of \$146,925), software costs of \$141,551, insurance costs of \$662,927, and public company expense costs of \$102,721.

For the three months ended March 31, 2023, general and administrative expenses were \$1,890,091 and were primarily related to expenses associated with employee payroll costs of \$612,981, stock-based compensation of \$330,605 for share-based awards granted to employees and consultants, professional fees of \$275,741 including legal fees of \$86,975 for SEC attorney and other legal services and tax and accounting fees of \$155,350, software costs of \$151,457, and insurance costs of \$349,972.

We expect general and administrative expenses to decrease slightly from the first quarter of 2024 over the next several quarters as we incurred our 2023 audit fees in the quarter and will not have them in the subsequent quarters. Costs such as insurance and public company reporting and compliance requirements will offset some of this cost reduction.

Interest and Other Expenses

Interest and other income/expenses for the three months ended March 31, 2024 was \$21,803,709. Non-cash interest expense of \$314,838 was recognized for the amortization of debt issuance costs and accretion of principal on the May 2023 Notes through the date these notes were exchanged for Preferred Stock. We recorded a loss on the conversion of some of these notes of \$333,544 and a loss from the exchange of these notes for Preferred Stock of \$1,314,064. We recorded a loss on the change in the estimated fair value of the Series A and Series B Warrant liabilities of \$20,004,342 which was partially offset by a gain of \$165,355 from the exercise of some of the Series B Warrants.

Interest and other income/expenses for the three months ended March 31, 2023 were \$1,774,134. Non-cash interest expense of \$1,776,636 was recognized for the amortization of debt issuance costs and accretion of principal on the Convertible Notes issued in August 2022.

Non-cash interest expense will no longer be recognized on the May 2023 Notes in the future due to the exchange of the May 2023 Notes for Series A Convertible Preferred Stock. Gains or losses from the change in the estimated fair value of the Series A and Series B Warrants will occur primarily based on changes in our common stock price and if the number of warrants adjusts if we complete additional equity issuances or additional reverse stock splits as specified in the terms of these warrant agreements.

Net Loss

Net loss for the three months ended March 31, 2024 was \$26,048,044. Net loss for the three months ended March 31, 2023, was \$7,299,469.

Liquidity and Capital Resources

On March 31, 2024, we had cash and restricted cash of \$3.6 million, including \$0.1 million of restricted cash, and we had working capital of \$2.2 million. Since inception we have funded our operations from proceeds from debt and equity sales.

Cash used in operating activities

Net cash used in operating activities was \$4.5 million for the three months ended March 31, 2024 and includes all of our operating costs except depreciation and amortization of \$0.1 million, non-cash interest expense for the amortization of debt issuance costs and accretion of principal on the May 2023 Notes of \$0.3 million, loss on change in derivative financial liabilities of \$20.0 million, losses on conversion and exchange of Convertible Notes of \$1.6 million and \$0.2 million from the loss on disposal of fixed assets. Cash used in operating activities includes an increase in accounts receivable of \$0.1 million due to sales to our U.S. dealers, an increase of \$0.5 million in prepaid inventory deposits primarily for purchases of Stag raw materials, a decrease of \$0.5 million in accounts payable, and an increase of \$0.3 million in accrued liabilities. As of March 31, 2024, we have a decrease of \$0.3 million in customer deposits, primarily due to orders being fulfilled for two of our Latin American distributors for shipments of Brats and Grunt EVOs paid for previously.

Net cash used in operating activities was \$6.5 million for the three months ended March 31, 2023 and includes all of our operating costs except stock-based compensation, write-down of inventory, depreciation and amortization, non-cash interest expense for the amortization of debt issuance costs and accretion of principal on Convertible Notes, and gain on sale assets and leases. Cash used in operating activities includes a decrease in accounts receivable of \$0.2 million for collections net of sales, increases in inventory of \$0.5 million and inventory deposits of \$0.8 million as we made purchases and deposits for Brats and Volcon Youth motorcycles, a decrease of \$0.5 million for both accounts payable and accrued liabilities due to timely payment of outstanding amounts due and a reversal of an accrual for anticipated shipping and tariffs related to shipping raw material and subassembly inventory to our third party manufacturer in Mexico as final assembly was moved to Arizona.

Cash used in investing activities

Net cash used in investing activities was \$0.1 million for the three months ended March 31, 2024, primarily consisting of \$0.1 million of purchases of equipment and tooling. Net cash used in investing activities was \$0.2 million for the three months ended March 31, 2023, consisting of \$0.3 million of purchases of equipment and tooling offset by proceeds received of \$0.1 million for the sale of two vehicles.

Cash provided by financing activities

Cash provided by financing activities for the three months ended March 31, 2024, was \$0.1 million and was primarily related to proceeds from the exercise of Series B Warrants.

Cash used financing activities for the three months ended March 31, 2023, was less than \$0.1 million and was related to proceeds used from the sale of vehicles to pay off notes payable and proceeds received from the exercise of stock options.

Our continuation as a going concern is dependent upon our ability to attain profitable operations and if necessary, obtain continued financial support from the issuance of debt or equity. As of March 31, 2024, we had incurred an accumulated deficit of \$146.9 million since inception.

Management anticipates that our cash on hand as of March 31, 2024 plus the cash expected to be generated from operations will not be sufficient to fund planned operations during the near term and not beyond one year from the date of the issuance of the financial statements as of and for the three months ended March 31, 2024. To continue our operations in the near term we will be required to raise additional financing prior to the third quarter of 2024. We do not have commitments for any such financing, and there can be no assurance that such additional funding would be available to the Company on acceptable terms, or at all. If we are unable to raise additional near-term financing, we will be required to modify or cease our operations. These factors raise substantial doubt regarding our ability to continue as a going concern.

JOBS Act Accounting Election

The recently enacted JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933, as amended, for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have irrevocably elected not to avail ourselves of this extended transition period and, as a result, we will adopt new or revised accounting standards on the relevant dates on which adoption of such standards is required for other public companies.

We have implemented all new accounting pronouncements that are in effect and may impact our financial statements and we do not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on our financial position or results of operations.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

Derivative Warrant Liabilities

We do not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. We evaluate all of our financial instruments, including conversion features of our convertible debt and warrants issued in connection with our convertible debt, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to ASC 480 and ASC Topic 815, “*Derivatives and Hedging*” (“ASC 815”). The classification of derivative financial instruments, including whether such instruments should be recorded as liabilities or as equity, is reassessed at the end of each reporting period.

We account for the Series A Warrants and Series B Warrants issued in connection with the November 2023 Common Units and Pre-funded Warrant Units as financial liabilities in accordance with ASC 815. Accordingly, we recognize these financial liabilities at fair value initially and adjust them to fair value at each reporting period. The liabilities are subject to re-measurement at each balance sheet date until exercised or until warrant exercise price and number of warrants become fixed, and any change in fair value is recognized in the statement of operations. The fair value of these financial instruments were initially measured at fair value using a Monte Carlo simulation model and subsequently, the fair value was also estimated using a Monte Carlo simulation model as of March 31, 2024. In addition, we made a probability assessment as to whether our stockholders would approve the adjustment of the exercise prices of the financial liabilities. The determination of the fair value of the warrant liability may be subject to change as more current information becomes available and accordingly the actual results could differ significantly. The Series A Warrants and Series B Warrants are classified as current liabilities as the timing of their exercise is at the discretion of the warrant holders and the warrants were fully vested as of the date they were issued.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) are designed to ensure that information required to be disclosed by us in reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the appropriate time periods, and that such information is accumulated and communicated to our Chief Executive Officer, who serves as our principal executive officer, and Chief Financial Officer, who serves as our principal financial officer, as appropriate, to allow timely discussions regarding required disclosure. We, under the supervision of and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of our disclosure controls and procedures.

Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the design and operation of our disclosure controls and procedures were not effective as of March 31, 2024 to provide assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to management as appropriate, to allow timely decisions regarding disclosures as we have previously missed filing certain forms timely and we have not implemented and tested controls and procedures to conclude that we have remediated this deficiency. Notwithstanding this conclusion, we believe that our unaudited consolidated financial statements contained in this Quarterly Report fairly present our financial position, results of operations and cash flows for the periods covered thereby in all material respects. Management is working to identify corrective actions for the weakness and will periodically re-evaluate the need to add personnel and implement improved review procedures.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting during the three months ended March 31, 2024, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time in the ordinary course of our business, we may be involved in legal proceedings, the outcomes of which may not be determinable. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. We are not able to estimate an aggregate amount or range of reasonably possible losses for those legal matters for which losses are not probable and estimable. We have insurance policies covering potential losses where such coverage is cost effective.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes to the risk factors included in the Form 10-K filed with the SEC on March 28, 2024, which is accessible on the SEC's website at www.sec.gov.

Our ability to continue as a going concern requires that we obtain sufficient funding to finance our operations in the near-term.

We anticipate that our cash on hand as of March 31, 2024 plus the cash expected to be generated from operations will not be sufficient to fund planned operations into the third quarter of 2024, and we will be required to raise additional funds prior to such date. We can provide no assurance that such funding would be available to us on acceptable terms, or at all. If we fail to raise additional proceeds, we will be required to modify or cease our operations. These factors raise substantial doubt regarding our ability to continue as a going concern.

If we fail to satisfy all applicable continued listing requirements of the Nasdaq Capital Market prior to June 24, 2024 our common stock will be delisted from Nasdaq, which could have an adverse impact on the liquidity and market price of our common stock.

On December 19, 2023, we were notified by the Listing Qualifications Department (the "Staff") of the Nasdaq Stock Market ("Nasdaq") that we were not in compliance with Nasdaq's Listing Rule 5550(a)(2), as the minimum bid price of our common stock had been below \$1.00 per share for 30 consecutive business days. On January 4, 2024, the Staff notified us that the market value of its listed securities had been below the minimum \$35,000,000 required for continued listing as set forth in Nasdaq's Listing Rule 5550(b)(2) for the previous 180 calendar days and served as an additional basis for delisting.

We submitted a hearing request to Nasdaq's Hearings Department, which stayed the suspension of our common stock. The hearing was held on March 26, 2024. On April 2, 2024, we received notification from the Nasdaq Hearings Panel ("Panel") that it has granted an extension until June 24, 2024, to demonstrate compliance with Listing Rules 5550(a)(2) and 5550(b)(1) (which requires at least \$2.5 million in shareholders' equity), subject to certain conditions.

In the event that our common stock is delisted from Nasdaq and is not eligible for quotation or listing on another market or exchange, trading of our common stock could be conducted only in the over-the-counter market or on an electronic bulletin board established for unlisted securities such as the Pink Sheets or the OTC Bulletin Board. In such an event, it could become more difficult to dispose of, or obtain accurate price quotations for, our common stock, and there would likely also be a reduction in our coverage by securities analysts and the news media, which could cause the price of our common stock to decline further. Also, it may be difficult for us to raise additional capital if we are not listed on a major exchange.

We have issued Series B warrants in connection with the public offering completed in November 2023 that have provisions that can increase the number of warrants and reduce the exercise price if we complete certain transactions.

Our public offering completed in November 2023 included Series A and Series B warrants (“Series A Warrants” and “Series B Warrants”) to purchase our common stock with initial exercise prices of \$24.75 and \$37.80, respectively. As of March 31, 2024, approximately 42,000 and 14.5 million Series A Warrants and Series B Warrants, respectively, remain outstanding and the Series A Warrants have an exercise price of \$1.8636 and the Series B Warrants have an exercise price of \$0.9059. Series A Warrants may be exercised on an alternative cash basis where each warrant exercised will result in the Company issuing three shares of common stock.

The Series B Warrants provide, subject to certain exemptions, that if we sell or issue, any common stock or convertible securities, at an effective price per share less than the exercise price of the Series B Warrant then in effect, or a Dilutive Issuance, the exercise price of the Series B Warrant will be reduced to an amount equal to the lowest daily volume weighted average price (“VWAP”) during the period commencing five consecutive trading days following the Dilutive Issuance and the number of shares issuable upon exercise of the Series B Warrant shall be proportionally adjusted so that the aggregate exercise price of the Series B Warrant shall remain unchanged.

Further, if at any time on or after the date of issuance there occurs any share split, share dividend, share combination, recapitalization or other similar transaction involving our common stock and the lowest daily VWAP during the five consecutive trading days prior to the date of such event and the five consecutive trading days after the date of such event is less than the exercise price then in effect, then the exercise price shall be reduced to the lowest daily VWAP during such period and the number of warrant shares issuable shall be increased such that the aggregate exercise price payable thereunder, after taking into account the decrease in the exercise price, shall be equal to the aggregate exercise price on the date of issuance.

As a result of the 1 for 45 reverse stock split we completed on February 5, 2024, the exercise price of approximately 15.8 million Series B Warrants were reset to \$1.8646 based on the lowest VWAP over the course of the five day trading period through February 12, 2024 and the new amount of Series B Warrants as of this date became approximately 7.1 million.

As a result of the exchange of the Convertible Notes for Preferred Stock (convertible at \$1.33 per share of common stock) in March 2024, the exercise price of the Series B warrants adjusted to \$0.91 per share based on the lowest VWAP in the five day trading period through March 12, 2024 and the total number of Series B Warrants adjusted to approximately 14.5 million.

In order to attempt to satisfy the Nasdaq minimum bid price requirement of \$1.00 per share described in the previous risk factor, we have asked our shareholders at our annual meeting to be held May 28, 2024 to grant our board the authority to effect a reverse stock split of between 1-for-10 and 1-for-100. Based on our current stock price, we will be required to complete a reverse stock split prior to June 10, 2024 in order to satisfy the minimum bid price requirement. As such, it is likely that further adjustments to the Series B Warrant exercise price and number of warrants will occur if we complete another reverse stock split per the terms of the Series B Warrants. In addition, as described above, we will need to raise additional financing in the near-term, which may cause further adjustments to the Series B Warrant exercise price and number of warrants.

Finally, the Series B Warrants provide that the exercise price of such warrants may be decreased at our discretion with the approval of a majority of the warrant holders. In order to induce the exercise of the Series B Warrants, either to raise additional funds from such exercise or simply to eliminate the warrants in order to eliminate the above provisions from causing additional dilution upon the completion of a reverse stock split or new financing, we may agree to reduce the exercise price of the Series B Warrants and such reduction could be significantly lower than the current market price of our common stock.

Although some of the holders of Series A and Series B Warrants have ownership limitations, if and when we do issue additional shares of common stock to holders of the Series A Warrants and Series B Warrants upon the exercise by the holder, such stockholders may resell all, some or none of those shares of common stock at any time or from time to time at their discretion. Resales of our common stock may cause the market price of our securities to drop significantly, regardless of the performance of our business.

In March 2024, we exchanged our outstanding convertible notes for Preferred Stock and a significant number of shares of common stock could be issued upon conversion.

In March 2024, we issued Series A Preferred Stock (the “Preferred Stock”) at \$1,000 per share in exchange for \$24.7 million principal of convertible notes. The initial conversion price for the Preferred Stock is \$1.33 and is convertible at any time. Through May 6, 2024, certain holders of the Preferred Stock converted approximately \$10.7 million for approximately 8.1 million shares of common stock. The total number of shares of common stock that could be issued as of May 6, 2024 for the outstanding Preferred Stock on this date is approximately 10.5 million shares.

The conversion price of the Preferred Stock is subject to adjustment if certain events such as a stock split, reverse stock split, or stock dividend occurs, or if we issue equity or convertible instruments at offering prices below the conversion price. In addition, in the event of a change of control or sale of substantially all of the Company’s assets, the Preferred Stock agreement provides for distributions that are either based on the number of common stock shares issuable under these agreements or based on other valuations as defined in the agreement. In order to attempt to satisfy the Nasdaq minimum bid price requirement of \$1.00 per share described above, we have asked our shareholders at our annual meeting to be held May 28, 2024 to grant our board the authority to effect a reverse stock split of between 1-for-10 and 1-for-100. Based on our current stock price, we will be required to complete a reverse stock split prior to June 10, 2024 in order satisfy the minimum bid price requirement. As such, it is likely that further adjustments to the Preferred Stock conversion price will occur if we complete another reverse stock split per. In addition, as described above, we will need to raise additional financing in the near-term, which may cause further adjustments to the Preferred Stock conversion price. The reduction of the Preferred Stock conversion price will proportionately increase the number of shares of common stock issuable upon the future conversion of the Preferred Stock.

The Preferred Stock holders may resell all, or some of the shares of common stock underlying the Preferred Stock after conversion, at any time or from time to time at their discretion. Resales of our common stock may cause the market price of our securities to drop significantly, regardless of the performance of our business. The adjustment of the conversion price for the Preferred Stock held by these investors based on the price of future issuances of securities could also limit our ability to raise capital as potential investors may not make an investment in a new issuance of securities if their investment could be immediately diluted due to adjustments in the conversion price or warrant exercise prices.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

During the quarter ended March 31, 2024, no director or officer adopted or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement, as each term is defined in Item 408(a) of Regulation S-K.

ITEM 6. EXHIBITS

INDEX TO EXHIBITS

Exhibit Number	Description
3.1	Amended and Restated Certificate of Incorporation of Volcon, Inc. (incorporated by reference to exhibit 3.1 of the Form 8-K filed February 5, 2024)

CERTIFICATION BY CHIEF EXECUTIVE OFFICER

I, John Kim, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarterly period ended March 31, 2024 of Volcon, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
