AI needs reliable, scalable power. Empery Digital is building it with Hunt Properties: up to ~\$2B in expected lease payments from a global AI hardware leader, plus a stake in a ~1GW West Texas buildout. Vote the WHITE card to protect the strategy.

The graphic features a dark green background with a faint grid pattern. At the top left is the Empery Digital logo. The main title 'PROTECT EMPERY'S AI STRATEGY' is in large, bold, white capital letters. Below this, three key points are listed in orange and white text: '~\$2B expected lease payments', '5 GW+ power capacity potential at West Texas data center campus', and 'Cash flow expected by early 2027'. At the bottom, a white button with a checkmark icon says 'VOTE THE WHITE PROXY CARD', and a smaller black button with white text says 'Learn More'.
